

AN AFFIRMING, INCLUSIVE, AND SUPPORTED OPPORTUNITY TO MEET NEW PEOPLE AND FORM NEW RELATIONSHIPS

Our Mates, Dates and Diversity evenings are focused on creating a supportive environment for peers to meet others, have conversations, and make a friend or even meet a possible partner. The night is supported by several kind staff to help scaffold conversations and support regulation so that everyone can have a good time.

The room is sensory-friendly, stocked with activities, sensory items for regulation and communication prompts for when you get stuck or need help. We will also provide you with scrumptious food to keep you going! We are happy for support people to attend as well.

All genders, sexual orientations, physical abilities and neurodiversity welcome!
